

► Series 6400 – Filter/Sparger Pipe Reducer Mounted

The Series 6400 filter/sparger is a versatile product featuring a Mott precision porous metal seamless tube, and may be used for gas/liquid contacting as well as filtration applications. It is designed primarily for users who want to fabricate their own inline filters, sampling devices or spargers.

Materials of construction: 316L stainless steel porous media, 316 stainless steel hardware. Filter element 100% leak tested to bubble point.

Filter Options:

Series No. – 6400 (filter/sparger)

Dimensions

(D) - Diameter	(A) - Male	(B) - Female Pipe Size	(C)
- 3/8"	- 1/4"	- 1/8"	- 1.06"
- 3/8"	- 1/2"	- 1/8"	- 1.08"
- 1/2"	- 1/2"	- 1/4"	- 1.08"
- 1/2"	- 3/4"	- 1/4"	- 1.08"
- 3/4"	- 3/4"	- 1/2"	- 1.63"
- 3/4"	- 1"	- 1/2"	- 1.37"
- 1"	- 1"	- 3/4"	- 1.85"
- 1"	- 1 1/2"	- 3/4"	- 1.25"

Lengths 6", 12", 18", 24", 36"

Media Grades 0.5, 2, 5, 10, 20, 40

Note: For other sizes, NPT combinations, media grades or materials – consult factory.

Filter Area

3/8" ø element: 1.1 in² per inch of porous length
 1/2" ø element: 1.57 in² per inch of porous length
 3/4" ø element: 2.35 in² per inch of porous length
 1" ø element: 3.14 in² per inch of porous length
